Portfolio: <https://abdullah.alaref.org/>

Professional Summary:

Informatics Engineering student with more than 3 years of professional experience in developing scalable Full-stack systems (Laravel/PHP) and business workflows automation, I developed a solid background in Informatics Engineering.

I was #1 in Syria in Computer Technology High school diploma in 2020

I enjoy coding operations to automate them, saved clients more than 1400 hours annually by automating.

Technical Skills:

Backend: PHP (Laravel), REST APIs, MySQL, System Architecture

Frontend: JavaScript (jQuery), HTML/CSS, Blade Templating

Tools: Docker, Git

Business Automation: Process design, CRM integration, workflow optimization

Work Experience:

CEO | Moriva | January 2024 – Present

I have developed over 5 auto systems for money/jewelry exchange businesses, reducing process time by 70% and human errors by 65%.

I also developed personalized CRM solutions that enhanced client sales tracking efficiency by 60%.

Additionally, I trained 10+ employees on new systems I created, enabling seamless adoption.

Backend Developer | CXD | July 2023 – January 2024

I created and built an online schools project with an admin panel for the manager that enhanced data security and report generation speed by 75%.

the project is used by more than 500 users.

I possess skills in database management and create tidy and high coding standards, optimized SQL queries to help minimize server load by 20%.

Education:

Bachelor of Informatics Engineering

Aleppo University | Expected Graduation: August 2026

Covered Coursework: Software Engineering, Database Design, Algorithms

High School Diploma (Computer Technology)

Nationally Ranked #1 | Class of 2020

Covered Coursework: C# Programming, Web Design, Network Management, Hardware and Software Maintenance

Soft Skills:

Problem-Solving and Responsibility: I needed to determine how to accomplish some new tasks assigned to me at CXD and i completed at an early stage

Leadership: I worked with 3 different teams at Moriva to deliver a client his project with 2 weeks earlier than expected.

Communication: I explained and clarified all the technical specifications for non-technical clients and ensured clarity and satisfaction.

Languages:

Arabic (Native) , English (Professional, C1), German (Basic) , Spanish (Basic)
